U.S. EPA Terminology Reference System

Introduction

The U.S. Environmental Protection Agency (EPA) Terminology Reference System (TRS) has been created to provide a single source of general terminology for the Agency by incorporating EPA-related terms and lists as well as other environmentally-related terminology sources. Terms can be categorized at an organizational and resource level; they are also classified by name and descriptive type. The TRS, currently under development, contains only a few terms, but additional information is being accumulated. Contextual definitions and hierarchical relationships (where they exist) can also be depicted in the TRS.

Glossary Search

- [Alphabetical Search](#)
- [Keyword Search](#)

The glossary search, which is either alphabetical or by keyword, enables the user to quickly find a specific term in the TRS. Optionallv. once you've selected your term. you can further view contextual images for the term with various other

Vision

Develop a repository of well-defined environmental concepts as a

tool for:

- **Cataloging data and documents**
- **Retrieving Web documents and data elements**
- **Developing data elements**
- **Integrating databases**

Strategy

- **Collaboration with GEMET**
- **Development of EPA concepts**
- **Collection of lists**
 - ◆ **Chemicals**
 - ◆ **Biological taxa**

Collaboration

In collaboration with the
European Environment Agency
General European Multilingual
Environmental Thesaurus (GEMET) system.

GEMET Collaboration

- **Review/revise European product (GEMET)**
- **Expand international collaboration**
 - ◆ **Asia**
 - ◆ **Arabic-speaking world**
- **Provide American English definitions**

GEMET Collaboration (Continued)

- **Use what exists and make it better**
- **Reference source of environmental concepts**
- **Multilingual**
- **Access to international and national subject-specific lists**

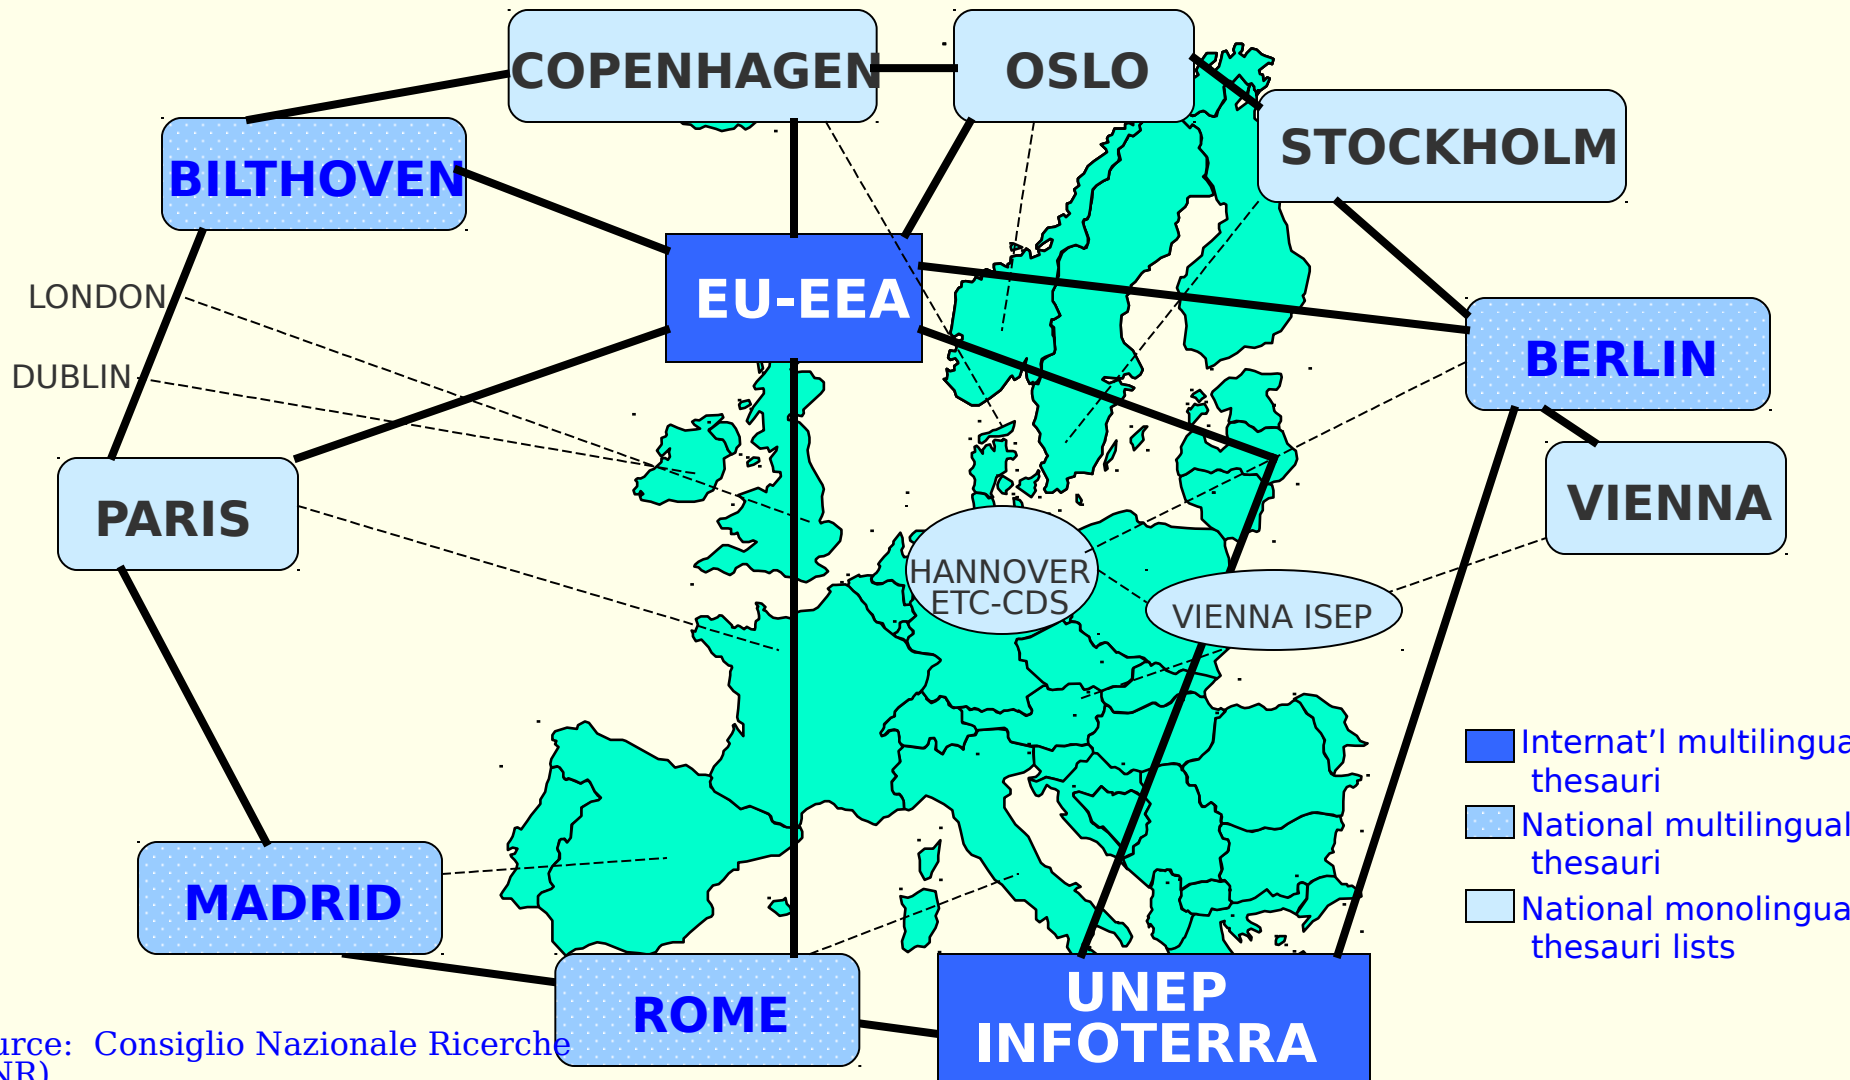

Progress and Plans

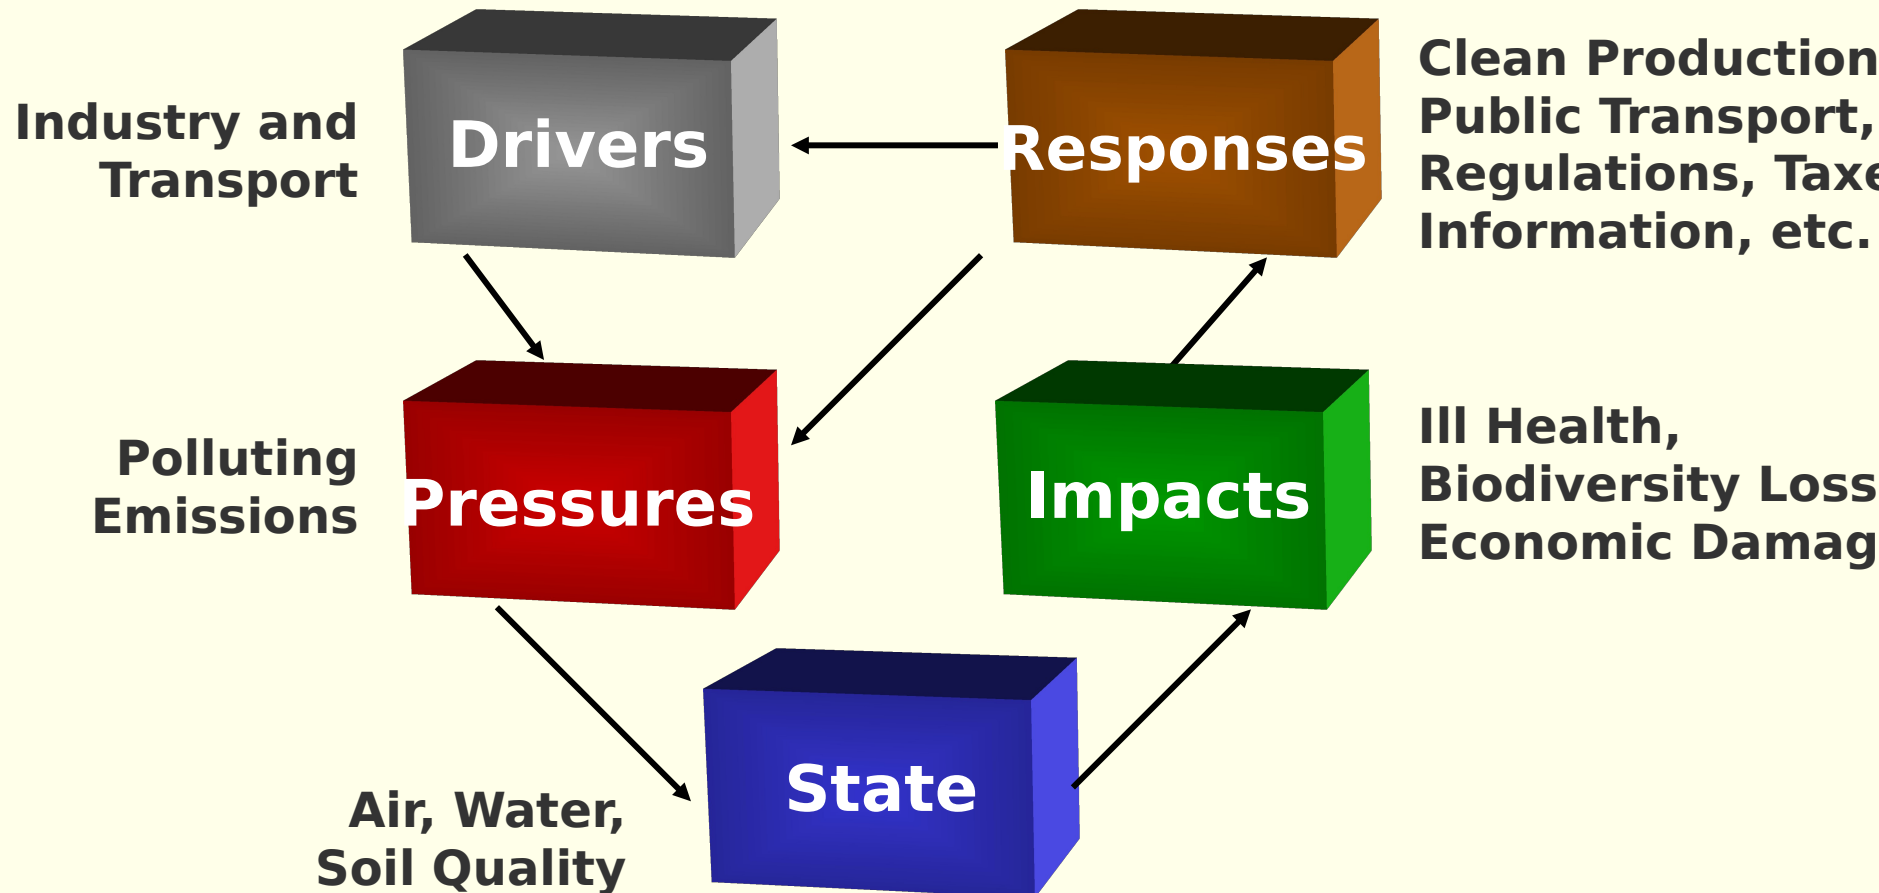

- **Six European thesauri combined - 1997**
- **Phase 1 - 1998**
 - ◆ **Include all European languages and U.S. equivalents**
 - ◆ **Provide definitions (English)**
 - ◆ **Provide synonyms**
- **Phase 2 - 1999**
 - ◆ **Refine an international core**
 - ◆ **Develop national branches**
 - ◆ **Develop subject-specific lists**

Environmental Thesauri Included in GEMET

Framework for GEMET Terminology Organization

GEMET Functionality

- **Multilingual**
- **Hierarchical**
- **Alphabetical**
- **Thematic**
- **Relational**
- **Polyhierarchical**

References to GEMET

Terminology Reference System (TRS)

Sources of Terminology

EPA/State Collaboration

- **Pilot-Hazardous waste clean up concepts**
 - ◆ **Partnership with states and tribal entities**
 - ◆ **Data element development**
 - ◆ **Search engines**
 - ◆ **Database integration**

Collection of Lists

- **Web Inventory**
- **Chemicals**
- **International lists**

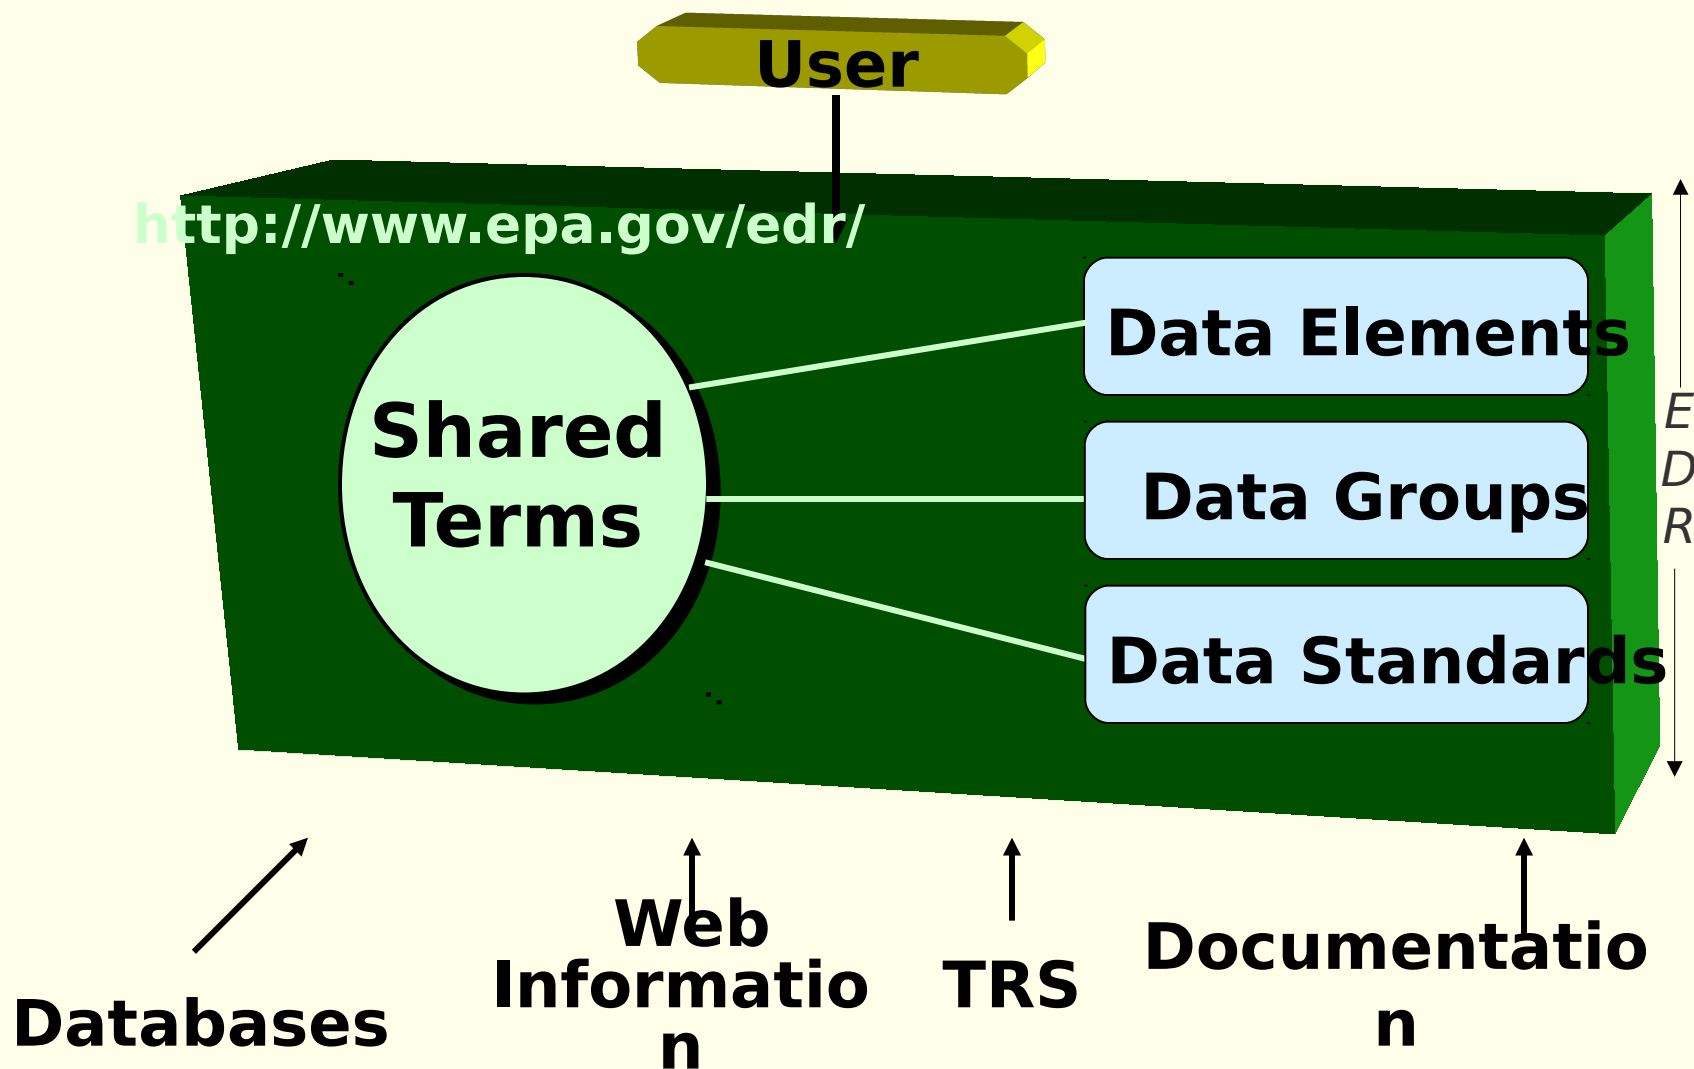

TRS Functionality

- **Source for data elements**
- **Repository for reference terminology**
- **Repository for lists**

- ✧ [Sign-up](#) for e-mail announcements about the EDR.
- ✧ [Register](#) your data elements through our on-line process.

TRS and EDR

Terms

Data Elements

Database Integration

- **Environmental Data Exchange Network (EDEN) pilot project**
 - ◆ **Collaboration: DOE, DoD, EPA, EEA**
 - ◆ **Map heterogeneous hazardous waste databases**
 - ◆ **Innovative technology**

Web Information Retrieval

- **Web metadata inventory**
- **Search engine**
 - ◆ **Thesaurus function**
 - ◆ **Topic sets**

Document Retrieval

- **Cataloging**
- **Indexing**
- **Reference vocabulary**
